EYE HEALTH OF CHILDREN – A MATTER OF CONCERN

Kids in the digital era, that too with poor eating habits need regular vitamin and mineral health supplement for maintenance of good eye health. While many health supplements are available for physical and mental health of kids, there are no supplements available for eye health in children.

Eysential Kids will be, for the First time in India, a tailor-made preparation for eye health in kids available as gummies, an attractive and tasty eye health supplement.

MECHANISM OF ACTION:

Vitamin A: It is required for kids' normal growth and development, as it plays an important role in vision. Vitamin A enables development of proper eyesight as it is vital for healthy retina. It helps in developing vision in low light conditions.

Vitamin D3 : In eye health it prevents release of pro inflammatory markers like IL-6,IL-8,cytokines

Lutemax 2020- Differentiated & Substantiated blend of macular carotenoids – The only complex Lutein, RR & RS (Meso) Zeaxanthin macular carotenoids in 5:1 ratio as found in natural dietary sources to support eye health. GRAS status granted by FDA.

Increases central macular pigment density. In this digital age, saves the eyes of children from the hazards of digital exposure –harmful blue violet light.

Thus, Eysential Kids is an Eye supplement designed to meet the need of growing children with essential vitamins, Zn & carotenoids.

CLINICAL EFFICACY: All individual components are well studied for their role and efficacy in growing children.

SAFETY: Safe, when used in recommended doses.

PACKING: Bottle pack of 20 Gummies
