

For the use of a Registered Medical Practitioner or a Hospital or a Laboratory only.

Nepafenac Ophthalmic Solution

NEFASOL™
नेफासोल

Composition :

Nepafenac 0.1% w/v

Stabilized Oxychloro Complex 0.01% w/v

(As Preservative)

Sterile Water for Injections IP q.s.

DESCRIPTION : Nefasol ophthalmic solution contains Nepafenac. Nepafenac is an ocular non-steroidal anti-inflammatory and analgesic prodrug.

PHARMACOLOGY : When Nefasol is administered into the eyes, it penetrates the cornea and distributes to all intraocular compartments and the tissues including the aqueous humor, ciliary body, iris, retina and choroid. After reaching to the ocular tissues, by the ocular hydrolysis, it is converted to the active non-steroidal anti-inflammatory drug (NSAID) i.e. Amfenac.

- Amfenac inhibits the action of cyclooxygenase, an enzyme responsible for production prostaglandins.
- Nepafenac targets the anterior & posterior segment of the eye, intraocular and vascularised tissues.

INDICATIONS : Nefasol ophthalmic solution is indicated for the treatment of:

- Post operative pain and inflammation associated with cataract surgery.
- Cystoid macular edema following cataract surgery.

DIRECTIONS FOR USE : The application of Nefasol Ophthalmic solution is one drop in the conjunctival sac of the affected eye (s) 3 times daily beginning 1 day prior to cataract surgery, continued on the day of surgery and for the first 2 weeks of the post operative period or as directed by the physician.

CONTRAINDICATIONS :

- Hypersensitivity to the active substance, to any of the excipients, or to other non-steroidal anti-inflammatory drugs (NSAIDS).
- Precaution should be taken if any patient who has sensitivity to acetylsalicylic acid, phenyl acetic acid derivatives and other NSAIDS because there is the potential for cross sensitivity.

ADVERSE REACTIONS :

Most common adverse reactions are capsular opacity, decreased visual acuity, foreign body sensation, increased intraocular pressure and sticky sensation.

WARNING : Use the solution within one month after opening the container.
FOR EXTERNAL USE ONLY. NOT FOR INJECTION.

STORAGE :

Store below 30°C. Protect from light & moisture. Do not freeze.

Keep out of reach of children.

PRESENTATION :

Nefasol Eye Drops is available in 5 ml Pack.
